

Coface Business Information

GREATER SECURITY FOR YOU

Coface Business Information allows quicker decisions and faster reaction to customers' demands and therefore builds a competitive advantage. Because knowledge is power!

Services to build and protect your business

Comprehensive and up-to-date information allows our customers to focus on real prospects and to develop business relationships based on both trust and facts.

Clients are able to select companies and reporting parameters to meet their specific needs and are automatically informed of changes. This supports the implementation of pro-active measures for fast response to critical events. Our information helps our clients control the

risk associated with particular customers or transactions and supports credit decisions.

Our clients can base crucial decisions on information collected by experts over more than a decade and this saves time and money.

Understanding risk allows our clients to guard business and profit margins from the potential loss associated with fraud, failure, or delayed payments.

Detailed credit reports

Why is it worthwhile to use detailed credit reports?

- One-off comprehensive information reports provided at your request.
- Information about companies from almost any country of the world provided.
- Long-term cooperation obligations not applied.
- Organisations are researched in view of the current business environment.
- Lower risks due to selection of the most suitable suppliers and customers.
- Time and resources saved, which can be allocated to the primary operations of your company.
- Awareness of the actual situation of your business partners.
- Safe management of credit scopes extended to the customers.
