Re-launch of Coface online business information marketplace

Coface, one of the leading credit insurers and market leader for information in Central Europe, re-launches its online business information marketplace. InfoICON – the biggest database in CEE – provides online information on more than 43 million companies in Western, Central and Eastern Europe.

Coface offers Business Information and Debt Collection in CEE for more than 20 years. As innovation and meeting the customers' needs are key elements of the company's strategy, the customer application for business information InfoICON was reviewed and adapted to the wishes and ideas of the clients. The focus of the re-launch was on increasing user-friendliness, detailed offer description and enhanced product range. The new InfoICON now is an online marketplace for business information that offers:

- products tailored to the specific needs of customers
- a detailed product description
- easy access without registration
- secure online payment
- immediate delivery of information
- ordering of Business reports worldwide thanks to our extended partner network

The information on over 43 million companies is online available 24/7 and optimised for mobile devices.

"Up-to-date business information is crucial in our daily business. Pro-active reaction is the key to success. Our information helps to control risks associated with partners and customers and supports credit decisions. The aim of this product re-launch is to improve the support of our customers and increase their efficiency. To put it in a nutshell: help them to save time and money", Ms Kompowska, Executive Manager Central Europe, underlines the benefits of Coface InfoICON.
